**Recommendation for Elmeri Puranen regarding his future MBA studies**

My name is Riku Hytönen and I was Elmeri's teacher at Haaga-Helia UAS. I highly recommend Elmeri to MBA studies because of his future plans as a business owner. He has already started his journey and could highly benefit from MBA. Elmeri speaks fluent English and performed his studies properly with no uncompleted tasks or courses. One of Elmeri's best performances during his studies was the course "Globalization and internationalization", which indicates that he has the mind to act as a business owner and MBA would truly help him with his future. Elmeri has also told me about his start up business and how much he would benefit from MBA with running his business. Therefore, I think that being highly motivated Elmeri will do well in MBA studies.

Yours sincerely,

Riku Hytönen
